Ballet meets Argentine tango in this dynamic hour-long program featuring elegant ballet, passionate Argentine tango and PointeTango's one-of-a-kind style of authentic tango danced on pointe shoes.

Audiences are transported to the streets of Buenos Aires as they follow two lovers dancing to the rhythms of the city night with fantastic lifts, intricate footwork and dazzling costumes.

"Tango in the Dark" begins when the sun goes down and ends with the first rays of light beckoning a new day full of hope. This show was created during the pandemic when stages around the world went dark and shares our experience as artists fighting to keep the light on our creativity.

*What happens when ballet meets Argentine tango?*

**PointeTango Dance Company** - PointeTango is the only dance company in the world to improvise authentic Argentine tango on pointe shoes and even on a mismatched pair of one pointe shoe and one stiletto! To achieve this unique combination of styles, PointeTango created an innovative style of hybrid dance unlike anything audiences have seen before!
